Informed UAW Strike Support
20. The UAW is a labor union representing hundreds of thousands of automobile workers in the United States. A strike began when contract negotiations with three of the biggest American automakers, Ford Motor Company, General Motors, and Stellantis, broke down and the deadline to renew the contracts passed. The UAW union is striking because the automakers have so far refused several changes requested by the union, including a $40 \%$ pay increase (the same pay increase the automaker CEOs received), increased retirement benefits, the restoration of cost-of-living pay adjustments, and other concessions.

The automakers argue that they face stiff competition from non-union car companies like Tesla and Rivian and that caving to the union's excessive demands will damage their ability to compete.

Thinking now about federal government funding...
Government Shutdown
22. Without Congress passing legislation to fund the government, the federal government would be unable to pay federal employees and fund agencies, causing a government shutdown. Congress recently passed a bipartisan stopgap funding measure to fund the government for an additional 45 days to avoid a shutdown as Congress works towards a bill that would fund the government for the whole year.

Now thinking about the child tax credit...
Child Tax Credit Preference
23. Over the past 30 years, both Republicans and Democrats have worked to cut taxes for families by expanding the child tax credit. In recent years, the child tax credit was expanded by Democrats to be more generous and to be given to those who are not working.

What would you like to see Congress do with the child tax credit?

## Child Tax Credit Bipartisan Compromise

24. Congress is currently debating whether or not to temporarily expand the child tax credit, a policy aimed at cutting taxes for families with children. A bipartisan compromise is very unlikely to be as generous as the previous credit under the first two years of the Biden Administration. It is likely, however, to focus on providing lower income families with a more generous credit.
